The chairman then briefly outlined the contents including mention that repair work to the car parks may commence at the start of next year when it is thought there will be sufficient funds available to start work on the car park nearest to the entrance gate. 7. **Proposed Rule amendments**

At this stage the secretary outlined the proposed changes to the rules, as follows:-

Firstly, the rules will be renumbered from item 6 onward to incorporate previous revisions and proposed additions, as follows:

6iii He shall not underlet, assign, or part with the possession of the allotment garden or any part of it, without the written consent of the Council. However, the named tenant may enter into an informal agreement with a third party to split the plot into two workable halves provided the council have confirmed this is agreeable, and it does not affect neighbouring plots.

Given the aforementioned consent, it should be noted that the responsibility for general tidiness, upkeep and cultivation for **both** halves remain the responsibility of the named plot holder.

7: Allotment plot Constructions and Fencing. (October 2023)

For the erecting of a Shed, Greenhouse, Polytunnel, Permanent Veg/Fruit Cage or Fencing around the plot, an application must be made in writing to the Committee prior to installation.

The committee advise a maximum permitted size of polytunnel of 3m x 2m, and a permitted maximum size of shed 6ft x 4ft (2mx1.2m) and will advise the type of construction that can be installed, its location on plot, acceptable materials and how to secure the construction to the ground.

- (i) The construction must not obstruct allotment pathways or cause hindrance to adjacent plot holders, and should be placed on the south side of the plot.
- (ii) The tenant must keep and maintain the construction to a safe standard.
- (iii) When vacating an allotment plot the tenant is responsible for clearing the site of said constructions unless donating it to the next tenant.
- (iv) In the event that the rule is not adhered to, the Council reserve the Right to have the construction removed.

New Additional Rule 12 Bonfires (October 2023)

Bonfires for the burning of allotment waste, tree cuttings etc. is only allowed between the Months of October to March inclusive.

They are not permitted during the growing season, the months of April to September when there are likely to be more people present on site.

During permitted months please ensure that the smoke does not cause a health risk or nuisance to adjacent plot holders and householders in vicinity and is put out immediately if requested to do so by adjacent plot holders.

Those lighting fires are to ensure that the bonfire does not cause excessive smoke and is extinguished upon departure.

As there are general health Risks and environmental issues involved with lighting a bonfire, we would suggest that the TVBC web site be reviewed prior to lighting.

A full set of the amended rules is appended to the rear of these minutes.

The Formal Meeting closed

8. Open Session.

8.1 The secretary then gave out the results of the 'Best Kept Allotment' competition from the allotment plot assessments carried out over the past season.

1st place and the Trophy goes to plot 99
Joint 2nd places to plots 20 and plot 81

Congratulations to all three during this session.

8.2 Mark Edgerley requested that we advise members not to use old degraded tarpaulin to cover their plots as it has the habit of deteriorating into strands of plastic filaments which blow around the plots in high wind conditions.

8.3 Plot 50 requested the provision of a secure locked area to overcome the issue of recent thefts. Discussion amongst those present confirmed that from past experience if a shed is locked - it will get broken into. Unlocked sheds containing unimportant contents tend to be left alone. It was emphasised that no-one should leave anything of value in their sheds.

With no further questions the meeting closed at 8.45pm.
